SANTÉ AU ROSÉ - ORGANIC

Summer is here, and with it comes a different world, a world with fewer rules, where the days seem longer and life is lived without a script. This season has its own magic, and although our passion will always be red wine, we also want to accompany you on this summer journey.

Santé au Rosé is designed to accompany you through sunsets by the sea or laughter outdoors. It's also designed to connect with new customers, who may discover in us a culinary companion.

Let's toast to the free spirit and to summer with **Santé au Rosé**.

ELABORATION

Manual harvest. Short, cold skin maceration followed by low-temperature fermentation in stainless steel tanks. No artificial fining agents or non-organic stabilizers.

TASTING NOTE

Pale pink with salmon hues, clean and bright. Intense and expressive nose. Predominant aromas of stone fruit (peach, apricot). Subtly mineral background reflecting its organic origin.

Vibrant and fresh on the palate, with well-integrated acidity. Lively and juicy on the palate, with a medium-long persistence. Slightly salty aftertaste.

FAMILY WINES SINCE 1999 • PRODUCIDO Y ELABORADO EN LA PROPIEDAD • VINOS DE ALTURA
